

The diagram illustrates the layout of a book cover, specifically the back side. It features a central white rectangular area. This area is enclosed by a green dashed line, which represents the 'Safe Margin'. Surrounding the green dashed line is a red dashed line, which represents the 'Bleed Area'. The text 'BACK SIDE' is centered in the white area. Labels with arrows point to the green dashed line ('Safe Margin'), the red dashed line ('Cut Margin'), and the area between them ('Bleed Area').
